The WayPoint Track Selling System™ Three-day Sales Training Workshop

Take the Mystery Out of Selling and Improve Top-Line Revenue

Better results. Increased sales. Greater sales team productivity and professionalism. The Track Selling System is a proven selling procedure based on the science and psychology of how and why people buy.

Has Your Sales Team Struggled to Grow the Top Line?

Would your sales managers rather manage sales process or salespeople personalities? How much could sales productivity jump if your sales team had a standardized selling language and easy-to-understand process? How can your sales team take better advantage of an improving economy?

The Track Selling System is a structured approach to selling used by industry leaders such as IBM®, Apple®, Bank of America and more than 3,000 corporate clients. Participants typically increase sales by 30%.

The Science of Selling: The Complete Selling Process

The Track Selling System is an about-face from obsolete sales tactics. It eliminates the stereotypes of salespeople maneuvering, tricking or cajoling prospects into buying. Track Selling means doing things for the client rather than to the client. If the customer doesn't benefit from the sale, the sale shouldn't take place.

WayPoint Track Selling combines a scientific process with an ethical philosophy that you can rely on: a win-win philosophy of serving the customer.

Adopt the Process, then Adapt for Better Sales Outcomes

WayPoint clients' sales organizations learn the buyer's hidden agenda: the Five Buying Decisions that prospects always make before buying. They then learn the Seven Steps of the Track Selling System that carry sales people smoothly through each of the prospects' buying decisions in the correct order. They then adapt track selling to their products, services and sales cycle.

Mystery Solved, More Sales

After the workshop, sales managers receive a 53-week reinforcement program to assure on-going improvement of their sales team and better top-line results.

Next WayPoint Sales Training Workshop: October 18-20, 2017 in Phoenix. Per person investment is \$1,495. Call Ron Holm at 651.269.8863 (or email ron@maxsacks.com) to register. See reverse side for testimonials.

RAVING FANS OF THE TRACK SELLING SYSTEM™

“Two years ago we kicked off a series of sales training workshops for WayPoint users and their sales teams. Many participants experienced a sales increase of 30% (or more) by combining the Track Selling sales process with their WayPoint dashboards and reports. As a result, those trained are better prepared, ask better questions, listen more objectively, sell smarter and close more sales.”
